We at PSIS aim to generate a pool of creative leaders for the future so that they become a part of the nation building process. The qualities inculcated in children since childhood are honed, nurtured, developed and directed with a mission and vision to create people who will transform the world. We are nurturing talent to bring out the full potential of students and empower them with a winning attitude.

Our curriculum is carefully designed by the experts to equip the children with the required skills to make them experts in their chosen fields and also sensitize them towards the needs of the society and the world.

Rabindranath Tagore expressed that "The highest education is that which does not merely give us information but makes our life in harmony with existence".

We at PSIS, keeping this spirit of education alive are continuously striving to nurture children into full-fledged personalities.

The Pre-primary years in PSIS inculcate in children the qualities of curiosity, exploration and discovery in a fun-filled, safe and happy environment. Both Scholastic and Co-Scholastic aspects of our curriculum offer umpteen opportunities for the children to explore their interests and innovative new ideas to prepare them for a smooth transition through Primary curriculum.
